

The Grab the Torch program has introduced me to so many new experiences, people and things I would never think I would undergo. A couple of weeks ago I would never believe I would be sharing a room with other girls but I adjusted and it was amazing sharing deep convos, laughs and genuine love between each and every individual. Ms. Peterson Nan was truly an immaculate speaker that touched me deeply. I never thought I would even get emotional throughout this program but Ms. Nan brought that out. She is truly a treasure and a very heartfelt speaker. I also love staying at the Stifler's due to the amazing view and the general heartwarming hospitality.

Furthermore, the staff and counsellors are excellent individuals who dedicated their time to help us throughout the week and also by guiding us in the right path. Julia Sleeper from Tree Street Youth also was a great influence on me. Her admiration and passion for her job highlights that she truly loves children and is a great philanthropist. I really connected to her due to her humorous stories and her strong aura and hope she continues to be successful in life. Overall, this program was such a great opportunity for me and I am very grateful to have been a part of grab the torch 2015.
